Most courses are online. Students could finish their classes earlier than August 14th if they work at home as well as in-person. Any student who falls behind the expected progress benchmark will be expected to be in-person everyday.

Students taking Life Science: Biology and Earth and Space Sciences will need to have met lab requirements to be eligible for summer school. Earth and Space Science will be a live online class (synchronous) from 9-11am 4 days a week through Google Meet.

Transportation will be provided, but you must sign up for it. Summer routes are different, so your child might be picked up at a bus stop, instead of at your house. If your child stops needing transportation, please call the transportation department and let them know. If your child doesn't show up to catch the bus after a few times, the bus will not continue to stop for them. If you have any questions about transportation, please call 315-626-3439 ex 6001.
